

Stories of Impact – Adam’s Experience

Adam surrounded by his family.

Adam moved into 15th Street Horizons’ Home when he was 20 years old; it was the hardest thing we ever did. Kids grow up and leave home, but Adam had seldom left our sight and we were very attached. Immediately the staff and members made Adam feel very much at home, and he had a life of his own there. He has a life! And it’s his life, with his friends, and his favorite activities and surrounded by the loving staff that is Horizons. The homes are well-kept, activity abounds, and he is loved and cared for by amazing people who make Horizons a vocation not just a job. Horizons is embraced by the community of Emmetsburg and supported by numerous donors. Staff and community support have made Horizons a truly outstanding program. Adam is 47 years old now and is thriving and living his best life because of Horizons. Adam continues to be the very heart of our family; he vacations with us and celebrates every special occasion and is beloved by all. He has been a special gift.
